**PROJECTED SECTION
on 270° - 90°**
Drawn with survey 2. See note below.

Site 0042: Cueva de los Cefrales (Cueva de Dofrades)

South Vega Bottom entrance: 30T 0450902 4795603 altitude 242m
Top entrance 30T 0450850 4795523 altitude 282m

Length 554m Depth 54m

1: Extended (down p16) and completely resurveyed 2001 to BCRA 5c; Hidden Hole digs surveyed 2002
2: Top entrance series extended by 80m and re-surveyed 2008. At this time the entrances were re-positioned using GPS and survey 1 fitted around the adjusted centre line. The projected section from 1 has not been adjusted or re-drawn. The 2008 projected section has been stretched around a centre line computed after it was drawn up.
