NOTES:
 Combined length after Easter 2017 of all the joined caves in the South Vega System, including Reñada and Comellantes is 34345m.
 This does not take into account adjustments due to batch 17-03 (nearly all re-survey) which has yet to be drawn up on this survey.
 Batch 17-03 centre line is shown in red
 Older drawn up surveys of parts of Reñada, eg Squirrel's Passage (Pete Smith), have yet to be drawn onto this survey.
