27/5/90

Phil + Pete to Escarabajo 0445

Took new track (old one re-made) up from Cruz Uzano to TV repeater stn, at 1st bend past old parking spot, track widening, has opened up cave (772). Cave looks like key-hole passage 2m high, but bottom full of earth from track, bend to left 10m, looks like gets small, but not packed (ie no light!). Escarabajo, surveyed & two pilots of pond found to be blind (approx 15 x 10m). 1st 3m of pilots in mud fill.

31/5/90 772 Swanee, (Sugger, Plit or Hilton in support)

No go, chuke of mud etc, from road that has been
piled into antenna, small draught at end, foss
dig, could be easy as good access + loose fill.
