

LOGBOOK

Year: 2003

Season: Christmas : New Year

Logbook pages scanned to jpg then combined into a pdf file using <http://smallpdf.com/>

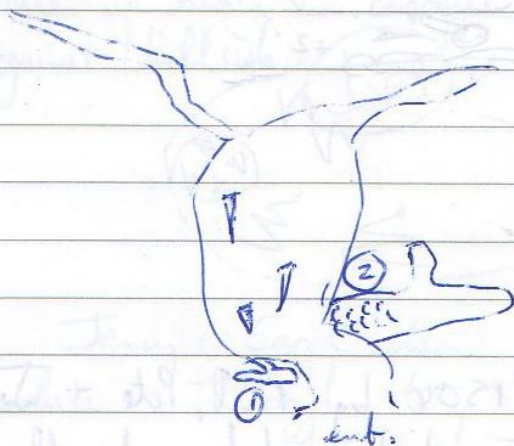

Juan Corrin, January 2015

Christmas 2003.

①

24/12/03 Pete, Lenny + Joan to Cueva de la Vega 360
Down a slope just inside the entrance a boulder was removed
to allow a squeeze down over a boulder - to a bouldery
section that choked ①. Pete climbed up a calcite wall

to reach a hole
about 5m up. That ②
choked with calcite.
The cave needs a
re survey.

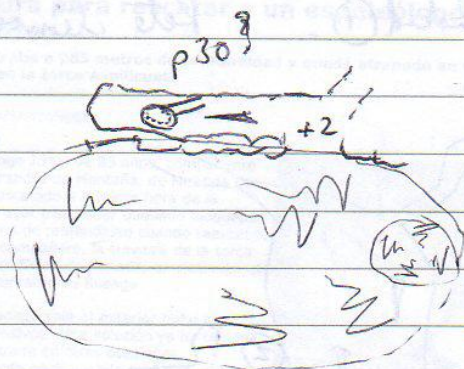

26/12/03 Andy, Julie, Arthur, Phil, Hilary, Joan, Lenny + Jenny
walked from the col below FLV to site 1033 on the
side of La Colina, checking out the claim that the dig
would soon go. Half an hour digging by Phil + Joan
disproved this and the site is probably best left to the
DCC.

Walked down to the Risco waterfall path in warm
sunshine.

27/12/03 Phil, Pete, Joan (+ Carol to start with) took the
generator and drill plus all the associated paraphernalia
to the Climbing Wall dig, site 1504. Phil spent over
4 hours popping + snapping, hanging from a rope at the
top of a step ladder.

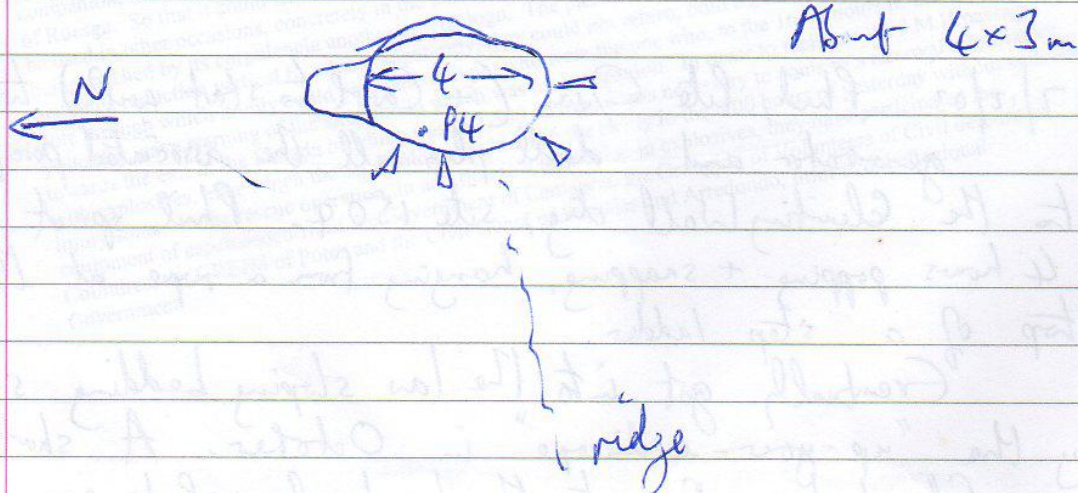

Eventually got into the low sloping bedding shown
by the "up-your-endoscope" in October. A short drop
is followed by another to the head of what seems to be

a 30m pitch. Phil opened this up at the top - it may require some more work to be comfortable.

29/12/03 Return to 1504 by Phil, Pete + Joan where Phil enlarged the top of the pitch and all 3 descended to a tiny passage at the base of a 17m pitch. Can be enlarged but need a draught to entice anyone back.
Length 33.4m Depth 24.8m, down to the level of the main passage in 415.

31/12/03 Descended 1967 to find a choked 4m deep shaft with alveoles at the base. Tried to find 901 but didn't so this seems likely to be that site. (Pete, Phil, Joan, Penny)

(3)

1/1/04 Pete Phil + Jenny looked at the water coming out of Carasquilla, site 11.

Also noted an undocumented resurgence half way between the church junction and ~~the~~ Rabbit Cave (437). Water bubbles up next to cabbages and can be heard falling in rift against hillside. 1303

31/12/03 Jenny + Carol down Vallonia with 4 BFC members. Through top pitches derigged.

MATIENZO CAVES PROJECT
