

site 727: Cueva Molino
 Butablado 30T 448550 4792390 (Eur 78) Altitude 219m
 Length 2290m Depth 123m
 Surveyed: 1996, 1997, 2011, 2012
 Surveyed and drawn in Acorn (Draw and Inkcape): Juan Corrin,
 Terry Whittaker, Robert Skorpupa, Artur Kozłowski and Chris Jewell.
 The 1996, 1997 survey has been included here as a gif file. A note from that
 survey reads: 2 conventions are used in showing sumps: smaller sumps are
 shown with cross hatching; larger sumps with a diver symbol usually facing
 in the direction of exploration.
 Malenco Caves 2013
